CRDCN TRIANGULATION SESSION WITH CRDCN RESEARCHERS
September 29, 2022, 1:00-3:00 p.m. ET
Registration link: https://crdcn.ca/triangulation-registration/?mc_cid=393f4d08ad&mc_eid=a2756ac494

Agenda

Time	Agenda item and description	Presenter(s)
1:00-1:15	**1. Welcome and context** Welcome and brief overview of highlights of the April 2021 and April 2022 documents circulated in advance	Johanne Provençal (CRDCN) and Magali Girard (CIQSS)
1:15-1:45	**2. Researcher data priorities** 2.a - Highlights of researcher data priorities identified through the researcher survey	Johanne Provençal (CRDCN)
	2.b - Progress thus far - Statistics Canada	From the Data Access Division: Kelly Cranswick, Shelley Jeglic
1:45-2:15	**3. Federal government research priorities**	Johanne Provençal (CRDCN)
	3.a - CRDCN coordination with Immigration, Refugees and Citizenship Canada (IRCC)	From IRCC: Christopher Hamilton, Lorna Jantzen and David Kurfurst
	3.b – CRDCN coordination with Employment and Social Development Canada (ESDC)	From ESDC: Maureen Doody and Sarah Wiles
	3.d – Discussion items - Can we identify intersections between government priorities for evidence-based policy and researcher expertise? - How can CRDCN researchers be involved in addressing some of these priorities? - How can CRDCN support these interactions and collaborations?	All participants
2:15-2:30	**4. CRDCN approach to triangulation** Triangulation efforts thus far leverage an existing cycle of activities (e.g CRDCN researcher survey; government department annual cycle of evaluation)	Johanne Provençal (CRDCN)
	4.1- Pilot “research-policy nexus” panel series	Johanne Provençal (CRDCN) and Claudia Sanmartin (Statistics Canada Analytical Studies and Modelling Branch)
	4.2 – Discussion - What other annual touchpoints would be useful to identify shared priorities for CRDCN researchers, StatCan and policy colleagues? - How do CRDCN researchers want to be involved in triangulation efforts?	All participants
2:30-2:50	**5. CRDCN initiatives to support information-sharing between researchers** CRDCN discusses activities that address the information-sharing needs identified by researchers (e.g. sharing dataset documentation)	Grant Gibson (CRDCN)
	5.1 – Discussion What would be most useful to researchers and feasible for CRDCN in future efforts to facilitate dataset documentation sharing among researchers?	All participants
2:50-3:00	**6. Next steps** - Triangulation discussion summary and other next steps as informed by triangulation session discussion today	Johanne Provençal (CRDCN)
