18 March 2020

To whom it may concern,

Statistics Canada and CRDCN are abiding by the edicts coming from various levels of government and partner institutions. The health of Research Data Centre (RDC) staff and researchers is paramount as Canada tries to contain the effects of COVID-19.

As a result, as of March 16th, 2020 all RDCs have ceased to operate until further notice to comply with the preventative measures recommended by public health authorities. We acknowledge the challenge this has raised for our researchers as this is a busy time of year with important deadlines.

We apologize for the inconvenience it has caused and hope that consideration can be given to those who have been affected by the inability to access their research.

Kind regards,

S. Martin Taylor, PhD, FCAHS
Executive Director
Canadian Research Data Centre Network (CRDCN)
